NEWGEN ALTERNATIVE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2023

This interim Management Report of Fund Performance (“MRFP”) contains financial highlights but does not contain the Fund’s complete interim Financial Statements. You can obtain a free copy of the Financial Statements by calling 1-833-563-9436, writing to NewGen Asset Management Limited, Commerce Court North., Suite 2900, 25 King Street West, PO Box 405, Toronto, ON, M5L1G3 or by visiting our website at www.newgenfunds.com or visiting SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

NEWGEN ALTERNATIVE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2023

Forward-Looking Statements (“FLS”)

The Management Report of Fund Performance may contain forward-looking statements. FLS means disclosure regarding possible events, conditions or results of operations that is based on assumptions about future economic conditions and courses of action, and includes any future-oriented financial information (“FOFI”) with respect to prospective results of operations, financial position or cash flows that is presented either as a forecast or a projection. FOFI is FLS about prospective results of operations, financial position or cash flows, based on assumptions about future economic conditions and courses of action.

FLS can be identified by the use of forward-looking terminology such as “may”, “will”, “should”, “expect”, “anticipate”, “target”, “project”, “estimate”, “intend”, “continue” or “believe”, or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of one of the Fund may differ materially from those reflected or contemplated in such forward-looking information and statements. Material risk factors that could affect actual results are identified under the heading “What are the Risks of Investing in the Fund?” in the Fund’s Simplified Prospectus. Investors are also cautioned that FLS is based on a number of factors and assumptions, including the Fund’s current plans, estimates, opinions and analysis made in light of its experience, current conditions and expectations of future developments, as well as other relevant factors. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

This Management Report of Fund Performance represents the portfolio management team’s view of the significant factors and developments affecting the investment fund’s performance and outlook for the period ended June 30, 2023. Every effort has been made to ensure the information contained in this Management Report of Fund Performance is accurate and complete, however, the investment fund cannot guarantee the accuracy or the completeness of this material. For more information, please refer to the Fund’s Simplified Prospectus (“Prospectus”) and the interim financial statements. In this report, “Manager”, refers to NewGen Asset Management Limited, the Manager of the Fund. The “Fund” refers to the NewGen Alternative Income Fund. In addition, “net asset value” or “NAV” refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based. All dollar figures are reported in Canadian dollars or in thousands of Canadian dollars, unless otherwise indicated.

Investment Objective and Strategies

The Fund's principal investment objective is to provide investors with a combination of steady long-term capital appreciation and a stable stream of income. The Manager will place a strong emphasis on risk management and defensive market positioning in order to reduce beta (i.e., systemic risk) and preserve capital in adverse market conditions. As a result, the objective is to deliver a unique return profile that has a low correlation and low volatility when compared to traditional equity market indices. The Fund may use leverage. The leverage will be created through the use of cash borrowings, short sales and derivative contracts. The aggregate gross exposure of the Fund shall not exceed the limits on the use of leverage permitted under applicable securities legislation.

The Fund invests both long and short in an actively managed diversified portfolio of predominantly Canadian securities (equities, fixed income, preferred shares, warrants, SPACs and options). It employs a broad range of strategies including fundamental long/short, opportunistic long/short, pairs trading, hedging and option strategies. The employs disciplined risk management and defensive market positioning in order to reduce market Beta and preserve capital in adverse market conditions.

NEWGEN ALTERNATIVE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2023

Risk

The Fund is suitable for someone who is looking for steady long-term capital appreciation and a stable stream of income in a diversified portfolio of investments to hold as part of their balanced portfolio and has a medium to longer term investment horizon.

General risks of an investment in the Fund are detailed in the simplified prospectus and include arbitrage risk, concentration risk, convertible securities risk, credit risk, currency risk, derivatives risk, large transaction risk, leverage risk, interest rate risk, legislation risk, market risk, multiple classes risk, cyber security risk, Coronavirus pandemic risk, among others.

There were no significant changes to the investment objectives and strategies that affected the Fund's overall level of risk during the reporting period. The risks of investing in the Fund and the suitability of the Fund for investors remains as discussed in the simplified prospectus.

Terrorism, War, Natural Disaster and Epidemic Risk

Terrorism, war, military confrontations and related geopolitical events (and their aftermath) can lead to increased short-term market volatility and may have adverse long-term effects on U.S. and world economies and markets generally. Likewise, natural and environmental disasters, such as, for example, earthquakes, fires, floods, hurricanes, tsunamis and weather-related phenomena generally, as well as wide-spread disease and virus epidemics, can be highly disruptive to economies and markets into the medium term, adversely affecting individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings, investor sentiment, and other factors impacting the value of the Funds' investments.

NEWGEN ALTERNATIVE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2023

Results of Operations

During the period ended June 30, 2023, Class F units returned -0.07%, Class F (USD) units returned 0.13%, Class G units returned -0.61%, Class G (USD) units returned -0.30% and Class I units returned 0.48% after fees and including distributions. By comparison, the S&P/TSX Composite Index was up 5.70%, on a total return basis. It is important to note that the Fund's return reflects the effect of fees and expenses for professional management and it comprises both long and short positions, while the S&P/TSX Composite Index does not have such costs and is fully invested.

The net asset value (NAV) of the Fund decreased by \$15.8 million to \$395.2 million from December 31, 2022 to June 30, 2023, with the main changes to equity derived through a combination of \$4.9 million in net outflows, \$10.3 million in distributions and \$0.6 million in net loss.

Canadian markets have been relatively range bound for the first half of the year, with periods of strength reversed due to several market concerns about the impact of Central Bank impacts on the global economy and geopolitical instability. The primary emphasis remained on inflation and the FED, with associated economic data having outsized impact on the market's performance. Despite the "higher for longer" narrative, which continued to take hold, the Technology Sector led the market, particularly in the US where the seven largest companies accounted for most of the gains in the broader market indices. There were periods of spiking volatility, most notably surrounding the US regional banking crisis and debt ceiling negotiations, but the VIX subsequently subsided to pre-COVID lows. Meanwhile, weak economic data out of China and a strong USD provided an overhang on commodity prices. The TSX lagged the US market indices due to its greater weights in the defensive and resource sectors.

During the six-month period from January 1, 2023 to June 30, 2023, the Fund did not breach the aggregate gross exposure limit of 300% of the Fund's NAV as prescribed by securities legislation, while the Fund's aggregate gross exposure ranged from 91.1% to 131.2% of the Fund's NAV during such period of time. As of June 30, 2023, the Fund's aggregate gross exposure was 107.1%. The primary source of leverage was short positions in equity securities.

Recent Developments

Equities have continued to advance from their late-June rally, on optimism that the FED's rate hike cycle has concluded, and inflation will continue to subside. A weaker USD and stronger commodity prices contributed to strong moves in Energy and Materials.

NEWGEN ALTERNATIVE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2023

Related Party Transactions

Management fees:

As a result of providing investment and management services, the Manager receives a management fee calculated and accrued daily based on the NAV of the class of units of the Fund, plus applicable taxes, payable on the last day of each calendar month. For the period ended June 30, 2023, the Fund incurred management fees of \$2,459,056 plus applicable taxes. Management fees, if any, in respect of Class I units are direct fees negotiated with the investor.

The Manager uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund's shares, investment advice, as well as general administrative expenses relating to the Manager's role as Manager.

The following is a breakdown:

Class of Units	Annual Rates	As a Percentage of Management Fees	
		Dealer Compensation	General Administration and Investment Advice
Class F units	1.00%	0.0%	100.0%
Class F (USD) units	1.00%	0.0%	100.0%
Class G units	2.00%	50.0%	50.0%
Class G (USD) units	2.00%	50.0%	50.0%
Class I units	Negotiable*	0.0%	100.0%

*Negotiated by the investor and paid directly by the investor. The management fee rate would not exceed the management fee payable on Class G units of the Fund.

Performance fees:

The Manager receives a performance fee in respect of each class of units of the Fund. The Fund will pay the Manager a performance fee each calendar quarter (a "Performance Fee Determination Period") equal to 15% of the Net Profit (as defined below) of each applicable class of units subject to the High Watermark (as defined below). The performance fee will be calculated and accrued for each class on a daily basis during each Performance Fee Determination Period and, with respect to an intra-quarter redemption of units of a class, on the relevant redemption date. For the period ended June 30, 2023, the total performance fees incurred were \$29,395.

Net Profit means, in respect of any class of units of the Fund for any Valuation Day, the positive amount (if any) calculated by deducting the NAV per unit of the class for that Valuation Day from the highest NAV per unit in respect of which a performance fee liability has previously arisen (the "High Watermark") (or the initial offering price of the units if no performance fee liability has previously arisen in respect of such class of units). The performance fee will be determined by multiplying the amount of Net Profit by the total number of the units of such class outstanding at the close of business on such Valuation Day.

No performance fee shall be paid in respect of a class unless the class NAV per unit exceeds the High Watermark and, in such circumstances, a performance fee shall only be paid on that portion of the Net Profit that exceeds the High Watermark.

Investors in Class I units may negotiate a performance fee to be paid by the investor that is different than the one described above or no performance fee at all.

Notes:

- (1) This information is derived from the Fund's financial statements for June 30, 2023 and December 31, 2022 and December 31 2021 for Class F (USD), Class G (USD) and from the financial statements for June 30, 2023, December 31, 2022, December 31, 2021, December 31, 2020 and December 31, 2019 for Class F, Class G and Class I and is not a reconciliation of beginning and ending net assets per unit.
- (2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/(decrease) from operations is based on the weighted average number of units outstanding over the financial year.
- (3) Distributions were paid in cash or automatically reinvested in additional units of the Fund, or both.
- (4) This information is provided as at June 30, 2023 and December 31, of the years shown, as applicable.
- (5) Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated year and is expressed as an annualized percentage of daily average NAV during the year.
- (6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the year. Included in the trading expense ratio are the forward fees.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the units in its portfolio once in the course of the year. The higher a funds' portfolio turnover rate in the year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

NEWGEN ALTERNATIVE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights - June 30, 2023

Past performance of the Fund

The following bar charts present the performance of each class of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each period, or on the class inception date, as applicable, would have increased or decreased by the last day of the period presented. The following information shown assumes that all distributions made by the Fund in the period shown were reinvested in additional securities of the investment fund and does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. As required under applicable securities regulation, the return of the Fund's long and short portfolio positions are shown for each class in addition to the overall total return for each such class.

Year-by-Year Returns

The following charts indicate the performance of each class of the Fund for the periods shown and illustrates how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of the period would have grown or decreased by the last day of the financial period.
